

Stapler Style Carrier Tape Cutters

8mm Stapler Style Tape Cutting Tool

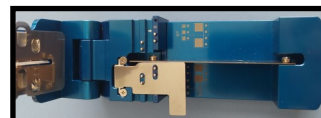

Our 8mm stapler style tape cutters offer superior cutting of 8mm tapes with light finger pressure. This model is used for 8mm carrier tapes only and cuts 1, 2, and 4mm pitch with peel back cover system. These tape cutters use replaceable blades that last 6-12 months, and special springs that enable the operator to cut the carrier tape with very little pressure, eliminating the usual operator fatigue.

8-32mm Stapler Style Tape Cutting Tool

Our 8-32mm stapler style tape cutters offer superior cutting of 8-32mm tapes with light finger pressure. This model is used for 8-32mm carrier tapes and cuts 2, 4, and 8mm pitch with peel back cover system. These tape cutters use replaceable blades that last 6-12 months, and special springs that enable the operator to cut the carrier tape with very little pressure, eliminating the usual operator fatigue.

8-72mm Stapler Style Adjustable Tape Cutting Tool

Our 8-72mm stapler style tape cutters offer superior cutting of 8-72mm tapes with light finger pressure. This model is used for 8-72mm carrier tapes and cuts 2, 4, and 8mm pitch (includes a quick lock to change from 4 to 8mm pitch). These tape cutters use replaceable blades that last 6-12 months, and special springs that enable the operator to cut the carrier tape with very little pressure, eliminating the usual operator fatigue.
